- Approval to work on amending § 20-207 Yard Waste, Grass Clippings and Leaf Waste. Currently states, “Leaf waste shall be placed on a pile or row on the street for collection in the fall of the year at times designated by the Borough and at any other time designated by the Borough. The pile or row shall be located on the street outside of the traffic lanes approximately one foot from the edge of the curb in such a manner as will allow safe passage of vehicles and also allow for proper stormwater drainage.
