

The Red Lion Municipal Authority (RLMA) is taking prudent actions to address the current health emergency caused by the coronavirus.

First and foremost, as an essential public service, the Authority will continue to be fully operational and open for business as usual to supply your residence or business with high quality drinking water. If you are a resident of Red Lion Borough, we will continue to provide sewer collection service.

Second, we will immediately make several changes to accommodate the current situation:

Until further notice, RLMA will suspend its program of replacing old water meters with new meters.

RLMA will temporarily suspend its practice of disconnecting water service for non-payment of water and sewer bills. Water and sewer bills will be issued on a monthly basis as usual and all customers are expected to make timely payments of all amounts due. When the current emergency has passed, all customers who have not paid their bills will be once again subject to having their water service disconnected.

All other operations of RLMA will continue as usual.
